Disclosure Risk Reduction. Variables flagged with * in this column have had some DRR action taken for inclusion on the public-use files. Those that have yellow highlighting with the * are new DRR actions taken for 2022-2023. See Codebooks or Recode Specifications for further details. Also see the list of restricted-use analytic variables for further information on variables suppressed altogether from this PUF. DRR

For further information on Variable Type, please see User's Guide section on "Description of Codebooks" where all variable types are defined.

Variable labels for "raw" variables on asked questions start with the question number.

Further details on each raw or computed variable can be found in the codebook entry for the variable or in the questionnnaires.

Further details on each recode can be found in the codebook entry for the variable or in the Recode Specifications.
